

Amit Karmon

E-mail: amit.karmon@philosophy.ox.ac.uk, Website : <https://amitkarmon.github.io>

Research Interests

AREAS OF SPECIALIZATION: Epistemology, Philosophy of Science, Philosophy of Machine Learning and Complexity

AREAS OF COMPETENCE: Logic, Philosophy of Physics, Evolutionary Theory, Political Philosophy

Academic Employment

Postdoctoral Fellow, the Edelstein Center for the History and Philosophy of Science, Hebrew University of Jerusalem	2026-Present
---	--------------

Education

DPhil in Philosophy, University of Oxford.	2024-Present
BPhil in Philosophy, University of Oxford.	2021-2023
M.A. in Philosophy, distinction (first in class), Hebrew University of Jerusalem.	2012-2014
B.A. in Philosophy, distinction, Hebrew University of Jerusalem.	2005-2008
Courses in Mathematics, Physics, and Biology (formal and informal, various institutions). Approximately B.A. level knowledge.	Since 2015 (with breaks)

Publications

Forthcoming. Learning from Examples and the Paradox of the Ravens.

Philosophy of Science.

2026. Have Bayesians Solved the Paradox of the Ravens? *Philosophy of Science*

2016. Point of View: Biological causal links on physiological and evolutionary time scales. *Elife* (with Yitzhak Pilpel)

Under Review

Learning from Data and the New Riddle of Induction

Last updated: August 2026

Which Ideal Epistemology?

Teaching

Tutor

Philosophy of science (3 groups each year of 2-6), University of Oxford	2024, 2025
--	------------

In-Class Teaching

Introduction to Logic (20-35 students), Hebrew University	2014, 2015
--	------------

Critical Thinking (25-40 students), Hebrew University	2013, 2014
---	------------

Grader

Advanced Logic Part I: Introduction to Meta-Logic, Hebrew University	2014, 2017
---	------------

Introduction to Philosophy of Science, Hebrew University	2014
---	------

Central Problems in Philosophy, Hebrew University	2014, 2015
---	------------

Jurisprudence, Hebrew University	2013
----------------------------------	------

Talks (Refereed or Invited)

LEARNING FROM EXAMPLES AND THE PARADOX OF THE RAVENS

PSA (2026), The Israeli Philosophical Association (2025), PhilML (2024)

COMPUTATIONAL COMPLEXITY AND KNOWABILITY

BSTK (2026)

WHICH IDEAL EPISTEMOLOGY?

The Israeli Philosophical Association (2026)

LEARNING FROM DATA AND THE NEW RIDDLE OF INDUCTION

Northeastern Epistemology Workshop (2025), The Israeli Conference on the
Philosophy of AI (2025)

Professional Service

Oxford Philosophy Graduate Conference Committee	2024-2025
---	-----------

Jowett Society Committee	2022-2025
--------------------------	-----------

Reviewer and Chair for the Oxford Graduate Conference	2022-2026
---	-----------

Grants and Awards

The BFHU grant (£3000)	2025-2026
The Royal Institute of Philosophy grant (£3000)	2025
Oxford-Reuben Graduate Scholarship (Full scholarship for the BPhil and the DPhil).	2021-2025
The HAPP Essay Prize in the History and Philosophy of Physics.	2022
Rose and David Baumgart Prize for distinguished paper in ethics	2014
Jack, Joseph & Morton Mandel Scholarship (Full scholarship).	2012-2014
